DEVOPS ENGINEER | 1+ YEAR EXPERIENCE | AWS · K8S · TERRAFORM · CI/CD

WORK EXPERIENCE

DEVOPS ENGINEER at Nexsoft Technology (05/2026 - Present)

Infrastructure management, CI/CD, monitoring, blockchain operations, load testing, and Docker deployment.

- Managed **~76 production servers**, **Docker**-based microservices, blockchain nodes, and infrastructure operations.
- Built and maintained **CI/CD** pipelines with **Jenkins** across Dev/QA/Prod environments.
- Implemented monitoring and alerting with **Prometheus, Grafana, Beszel, and Uptime Kuma** for infrastructure and critical services.
- Managed **Nginx**, cloud service integrations, blockchain nodes, and production incidents to ensure system reliability.
- Conducted load testing with **Docker Swarm**, validating capacity for up to 12,000 concurrent users across 3 servers.
- Built and configured AI agents using **Claude API**, **MCP Poneytail**, and **Guard context** to handle bug reports and resolve simple critical issues..

Full-Stack Developer at Bmate (09/2025 – 05/2026)

DevOps & Automation Specialist

- Built and maintained **CI/CD pipelines (Github Actions)** to automate data flow and deployment processes, improving consistency and reducing manual operations.
- Containerized workloads and **optimized system performance**, significantly reducing **processing time** and **resource usage**.
- Implemented monitoring and logging systems **(Prometheus, Grafana, Loki, Uptime Kuma)**, improving observability and enabling faster incident response.
- Took ownership of diagnosing and resolving production issues, contributing to system stability and reduced downtime.
- Managed reverse proxy and access control **(Nginx, Cloudflare)** to secure internal services and monitoring systems.
- Automated internal workflows and data pipelines, reducing manual errors and improving operational efficiency.
- Continuously improved infrastructure setup and explored standardization through CI/CD and infrastructure-as-code practices.

Full-Stack Freelancer (04/2025 – 05/2026)

Responsible for coding, deployment, client communication, troubleshooting, testing, and system maintenance.

- Deployed multiple internal and public websites, including Agribank chatbot (BA, PM), Osasi CRM (Dev), and IELTS 4-skills learning platform (BA, Dev, Test).
- Developed and launched public websites maikashop.vn and mapkitchens.com, handling full-cycle delivery from development to production.

PUBLICATIONS

- VRPTW (multi-objective) — **Applied Soft Computing (Q1)**, 2025
- TSP optimization — **IEEE Access (Q1), 2026**, DOI: 10.1109/ACCESS.2026.365622

PERSONAL PROJECTS

Examix - a minimalist and fast platform for creating exam questions.

- Deployed and maintained Examix on AWS ECS with basic container orchestration, using Portainer for container management and monitoring.
- Implemented health checks with Uptime Kuma and infrastructure monitoring with Beszel to ensure system reliability and uptime.
- Integrated Umami analytics as a privacy-friendly alternative to GA4 for tracking usage and performance metrics.

EDUCATION

Bachelor of Engineering in Information Technology - GPA: 3.5/4.0 | Nong Lam University – Ho Chi Minh City

KEY SKILLS

Cloud & Infrastructure: AWS, Terraform, Linux
CI/CD & Automation: GitHub Actions, Jenkins
Containers & Orchestration: Docker, Docker Swarm, Kubernetes
Networking & Security: Nginx**,** Trafix, Cloudflare
Messaging & Streaming: Apache Kafka, Pub/Sub
Monitoring & Observability: Prometheus, Grafana, Beszel, Uptime Kuma, Dozzle, Graylog
Databases & Caching: Redis, PostgreSQL, MySQL, MongoDB, SQL Server
Programming & Scripting: Python, Java, JavaScript, PHP
Application: FastAPI, Spring Boot, Laravel, React/Next.js, Angular
